ABOUT THE COLLEGE

Krishnasamy College of Education for Women (KCEd) was established in the academic year 2005-2006 catering to the needs of Teacher Education for Women. This college provides education, especially for downtrodden, socially and economically backward women.

KCEd is situated in the south-edge of French tradition based Union Territory of Puducherry. It is in the midst of rural village named as Manapattu, of the Bahour Commune. It is a hop away from the south gate way of Puducherry and the east sea coast. It is in the East Coast Road.

The Institution has been dedicating itself to the service of society by educating and preparing professionally qualified secondary level teachers for the last 12 years. The College is affiliated to the University of Pondicherry, recognized by the National Council for Teacher Education and accredited by NAAC. The College is also recognized under UGC 2(f) status. It is one of the best institutions under the umbrella of the prestigious Sri Subbulakshmi Krishnaswamy Reddiar Educational Trust in Cuddalore & Puducherry.

The College has a good record of excellence and reputation and has a strong commitment to address to the needs arising from a dynamic and rapidly changing society.

The college is functioning with all infrastructural facilities as per NCTE Regulations December 2014, state-of-art ICT Resource Centre, Curricular Laboratories, Health and Physical Education Resource Centre (with Yoga Education), Multi-purpose Play Field, ICT enabled Seminar Room and ICT enabled Multi-purpose Hall, Art and Craft Resource Centre, Library-cum- Reading Room, Integrated Resource Centre and Psychology laboratory. The College is planning to introduce 4 year integrated B.Sc., B.Ed., Programme from the academic year 2017 - 2018 onwards.

ABOUT THE SEMINAR

Theme: - Education in the Digital World

In this Digital World, people are inter connected through digital devices and media. Today the world is full of ideas, opinions, learning and opportunities which are transferred through the electronic devices to one person to other person. These knowledge transformation through digital mode makes education Boundary less, Flaw less, Paper less, Person less, Gender less, and Pleasurable. It helps one to be more aware about the 21st century world in all walks.

SUB THEME :1

Learning and Teaching in the Digital World

The digital world has revolutionised the whole system of education particularly teaching and learning process. Today the focus is more on learning rather than teaching. The role of the teacher is changed as the "Facilitator of Learning" and the ocean of information on internet enabled the teacher to be a "Sorter of Information" (UNESCO,1996) in learning. Today, "How to Learn" is becoming much more important than "What to Learn". The digital revolution is creating a new system of paperless teaching and learning process.

SUB THEME : 2

Evaluation in the Digital World

Evaluation is a process of observing and measuring a thing or a person for the purpose of judging its effectiveness and values. Today, the system of evaluation is becoming online and paper less. The evaluation of written test is also digitalized. The Continuous and Comprehensive Evaluation (CCE) and External Examination (EE) are being gradually digitalized. But in India, the scenario is not as in the advanced countries. But there is an abundance scope for the digitalization process in India. The paperless evaluation system may be eco-friendly.

SUB THEME :3

Educational Management in the Digital World

The 21st century has witnessed tremendous advancement in all walks of life due to digitalization in all aspects of institution life. The effectiveness of institution is measured in terms of management which consist of planning, staffing, organizing, directing, coordination, motivation and control. Digitalization has created a thorough change in all aspects of the above said managerial functions. The paperless office and rapid communication system have thoroughly changed the whole system of educational management in the three levels (Primary, Secondary and Higher Education Levels). The efficient and effective management with accuracy is ensured through digitalization.

SUB THEME : 4

Financial Management in the Digital World

The year 2016 was a remarkable year for Indians and business community around the world due to demonetisation of Indian currency. Today the focus in India is towards digitalisation of Indian monetary system through digital mode of fund transfer to all aspect of transaction even for a few rupees in a tea shop. One can understand the significance of digital mode of transaction in the educational institutions. Today, digitalization is enabling all the educational institution to manage the financial resources efficiently and effectively. The accuracy, speed, holistic nature, transparent and readily accessible nature are some of the benefits of digitalisation in the financial management.

[The paper presenters can identify any one of the sub-themes mentioned above and describe the present scenario and future directions of the digital world. They can also identify any one of the three levels of the education (Primary, Secondary and Higher Education) in their papers]
