NATIONAL SEMINAR ON

NEP2020 - CREATING A NEW ACADEMIC PHENOMENA IN INDIAN EDUCATION SYSTEM

ON

23rd February 2024

Organized by
Internal Quality Assurance Cell (IQAC)

ABOUT THE COLLEGE

Krishnasamy College of Education for Women (KCEd) was established in the academic year 2005-2006 to cater to the needs of Teacher Education for Women. This college has been providing education, especially for down trodden (socially and economically backward) women. The Institution has been dedicating itself to the service of society by educating teachers and preparing professional educators at the secondary level for the last 18 years. The College is affiliated to the Pondicherry University, recognized by the National Council for Teacher Education and accredited by NAAC& 2f status from UGC

From the academic year 2020-2021, the college has been converted into a composite institution offering 2 year B.Ed. and 4 year B.Sc. B.Ed. programme. At present the college is planning to convert as a multidisciplinary institution as per the requirements of NEP 2020.

The new excellent and rich curriculum of the Pondicherry University is being transacted with well-equipped curricular laboratories and ICT and other resource centres including library, the sports facilities and hostel facilities are available separately for women. Every year National Seminar and Webinar are conducted.

ABOUT THE SEMINAR

National Education Policy (NEP) 2020 is to bring transformational reforms in school and higher education and thus shape India into a global knowledge superpower. NEP 2020 is designed to suit the 21st century needs and aims at bringing out the unique capabilities of each student.

Sub Theme: 1 Prospects and Challenges of NEP 2020

The implementation of NEP 2020 involves several challenges, such as, the need for substantial investment in education, the lack of adequate infrastructure and resources, the shortage of trained teachers, the challenge of providing quality education in remote and rural areas, and the need for effective collaboration between various stakeholders.

National Education Policy (NEP) 2020 aims to transform the Indian Education System by promoting flexibility, holistic learning, skill development, fostering innovation, and enhancing research opportunities despite implementation hurdles, resource constraints, resistance to change and the need for effective teacher training which pose challenges in realising the goals outlined in NEP2020.

Sub Theme: 2 Multidisciplinary Education and Holistic Development

Ancient Indian literature described a good education as "knowledge of the 64 Kalaas or arts". These arts are not only subjects, but also include mathematics, science, vocational subjects, professional subjects and soft skills. Moreover it integrates Humanities and Arts with Science & Technology, Engineering and Mathematics (STEM). It has consistently showed positive outcomes, creativity, innovation, critical thinking etc. besides engagement and enjoyment of learning.

National Education Policy (NEP) 2020 stated that "A holistic and multidisciplinary education would aim to develop all capacities of human beings -intellectual, aesthetic, social, physical, emotional, and moral in an integrated manner" (NEP, 2020).

Sub Theme : 3 Entrepreneurship Development for Students

The NEP 2020 aims to establish an educational landscape that caters to the overall development of students to create industry ready workforce to meet global industry requirements and emphasis is on entrepreneurship and start-ups ecosystems. Knowledge, skills, and abilities, as well as attitude are the three crucial characteristics of entrepreneurs.

The National Education Policy (NEP) 2020 promotes entrepreneurship education by encouraging the integration of entrepreneurship education into the school curriculum. Establishment of incubation centres, entrepreneurship development cells, entrepreneurship development programmes, and entrepreneurship clubs in universities and colleges aids in promoting entrepreneurship education.

Sub Theme : 4 Professional Development for Teachers

Professional development encourages teachers to be active participants in their own learning and ensures that students and leaders alike are eager to learn. It can include taking classes or workshops, attending professional or industry conferences, or earning a certificate to expand knowledge in chosen field.

The motivation and empowerment of teachers are required to ensure the best possible future for children and our Nation. Teachers will be given continuous opportunities for self-improvement and to learn the latest innovation and advances in their profession by participating in Continuous Professional Development (CPD). Career Management and Progression (CMP) & National Professional Standards for Teacher (NPST) programmes.

PARTICIPANTS

Thematic and research papers with empirical evidences are invited from the Students, Research Scholars and Faculties in Schools and Colleges (Arts and Science, Engineering, Medical, B.Ed., colleges, Law college and in the University Departments).Field experts, Academicians and Administrators.
