I am happy to note that KCEd is going to publish the second Newsletter describing various curricular and co-curricular activities carried on during these 3 months for the total personality development of the Women Teachers.

As per the saying "Practice makes a Man Perfect", the 30 days teaching practice in schools around Cuddalore and Pondicherry was completed with the able guidance of the faculty members which in turn helped the trainees to develop their teaching competencies.

The five days Citizenship Training Camp organized in the month of December in Seliamedu, Manapattu, Kanniakoil, Kattukuppam and Varkal Oodai villages helped the trainees to understand the villages and they voluntarily took part in social service activities and planted tree saplings by involving the local people. The participation of two Ministers of the Government of Puducherry, Dental Camp, Students Community Work and their Cultural Programme in the villages needs to be appreciated.

The students' development and faculties' development are the two sides of a same coin. Various workshops and training programs were organized for the benefit of B.Ed teacher trainees and faculty members. They took part with keen interest and were very well appreciated by the resource persons.

I congratulate the Principal, the Faculty Members and Teacher Trainees for giving true life to the curriculum framework of Pondicherry University and NCTE.
